## Technical Specifications Participant Configuration

<b>Hardware Specifications</b>	
Operating System	Windows 2000, XP, or Vista Macintosh OS/X, 10.3.x or later
CPU	CPU requirements will be based upon the OS
Memory	Memory requirements will be based upon the OS
Hard Drive	There are no hard drive storage requirements
Graphics	Prosperity LMS requires a minimum monitor resolution of 800x600; however, we recommend a resolution of 1024x768 or higher. Certain courses may require resolutions greater than 800x600
Sound	Prosperity has no sound requirements. Certain courses may require the ability to playback sound.
Network	Prosperity LMS does not have specific bandwidth requirements and can be accessed with a dial-up connection of 56kb; however, many of the courses that might be delivered by Prosperity do required the user have a broadband connection.
<b>Software Specifications</b>	
Web Browser	Internet Explorer 5.0 or later (Windows) Mozilla FireFox 1.0 or later (Windows or Mac OS/X). Note: The student's browser must have JavaScript enabled.
Adobe Acrobat Reader	If certificates are to be issued through, the student must have Adobe Acrobat Reader version 5.0 or later
Email	If the student is to receive emails generated by system events, the student must have an accessible email account.
Course Requirement	The particular courses that are delivered by Prosperity may have additional software requirements such as Macromedia Flash Player, Adobe Acrobat Reader, etc. These requirements, however, are not part of Prosperity LMS.
