- Select a class, and complete registration by clicking the ENROLL button next to the session.
- Once enrolling is complete, the registered session will be added and displayed on your My Learning dashboard.
- Research staff are required to attend one session per year but are able to enroll in more than one session if desired. NUCATS staff may need to remove registrants who have already attended a session if new attendees are unable to register due to space limitations. We will communicate these changes directly ahead of time, and all sessions will be recorded and archived in myHRLearn.
