MARK ROGOVIN PILOT RESEARCH AWARD IN NEUROSCIENCE

The Northwestern University Clinical and Translational Sciences (NUCATS) Institute is pleased to announce this request for applications for the Mark Rogovin Pilot Research Award in Neuroscience. This award is intended to support a pilot research project (up to $25,000 over two years) on a neuroscience topic related to memory and dementia. Applicants should describe how the funded pilot research activities will contribute directly to a planned future submission for research funding from the National Institutes of Health.

Basic science and clinical faculty as well as clinical fellows at the Feinberg School of Medicine and Northwestern Memorial Hospital are eligible to apply. Applications involving a clinical fellow should include a letter of support from the fellow’s research mentor, detailing how the mentor intends to support the proposed research activities and planned submission for downstream funding.

Allowable expenses include: Northwestern Medicine Enterprise Data Warehouse analyst support; Biostatistics Collaboration Center biostatistician comprehensive consultation; Northwestern University research core expenses; research participant recruitment efforts and compensation; research equipment and supplies; and salary expenses for the PI and other named personnel.

APPLICATION DETAILS

Application Submission Deadline
January 5, 2021 at 11:59pm

Anticipated Funding Start Date
February 1, 2021

Maximum Award Budget
$25,000
$12,500 in Award Year 1, $12,500 in Award Year 2

Where to Apply
Submit your application via the Northwestern Competitions website
https://competitions.fsm.northwestern.edu/

APPLICATION CHECKLIST

Project Title
Research Strategy & Deliverables
Lay-friendly Description of Research Project
Budget & Budget Justification
NIH-style Biosketch
Letter of Support from Clinical Fellow’s Research Mentor
